3. Introduce guest speaker
 - a. Atulya Mandyam. 11th grade participant in the 2021 San Diego Science Fair--Winner of SDCPhA award
 - i. Novel Biomarker for Identification of Bipolar Disorder Treatment Response
 - ii. BPD is prevalent in the US 15-30 y/o (high school/college students)
 - iii. Lithium is the main Tx at this time - goal is to implement a time-efficient screening process for lithium responsiveness
 - iv. Need - a biomarker for lithium responsiveness - use a model system with great translational potential
 - v. Cellular effects caused by altered dopamine release by methamphetamine
 - vi. Process may be 1-2 weeks as opposed to several months of psychiatrist evaluation
4. Old Business: Approved March and April Meeting Minutes
 1. President-elect: need nominations!!
 2. Need speaker recommendations for Questions about Rx pricing (e.g. reimbursements, discount cards, etc.)—f/u with Danny from CPhA
5. HPV Vaccination Call to Action - Key Opportunities for Vaccination
 - a. County of SD has a high number of missed opportunities for HPV vaccination and low numbers of series completion

- b. Results show gaps within healthcare, pharmacy and school sectors
- c. HPV is most often administered reactively at pt request
- d. Systemic barriers: reimbursement structure, OOP cost is expensive, hard to screen for missing vaccine in system
- e. Staff Barriers: time constraints
- f. Pt/Consumer Barrier - vaccine hesitancy, lack of interest, parent's misconception
- g. Social Barriers: low acceptance of vaccines, stigma of HPV and cancer/sex
- h. Opportunities for Action: best practices & policy, workflow procedure changes, opportunities for training & resources
- i. <https://pediatrics.aappublications.org/content/pediatrics/early/2021/05/11/peds.2021-052336.full.pdf>
- j. Pledge - <https://forms.gle/FVH8baxjrWPGnzCT6>

6. New Business

- a. Future Meeting planning
